

J. E. BROWN  
Superintendent of Lancaster City Schools

### EDUCATION IN LANCASTER

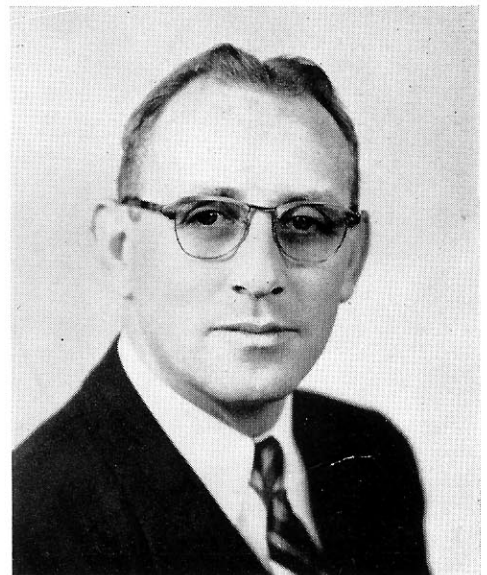

The attention of the entire is focused upon the serious problems in education.

Every citizen in Lancaster has a tremendous stake in the success of our schools. From these halls shall emerge the future leadership of this community. A very broad and comprehensive understanding and support of the significant role of education in our society is necessary for the continued progress and growth of our total school program.

Our total school program must be concerned with the kind of education of each student.

The present generation in our classrooms today will be responsible for the leadership in our community tomorrow.

J. E. Brown

ROBERT W. PAYNE  
Assistant Superintendent
