

# Our social life was one of the best

What a change from the routine of books . . . a dreamy gown and beautiful flowers . . . a starlit night, soft light, music, and the gym transformed into a Paris cafe. This is just one insight to the social life of the students at L. H. S. The young people at L. H. S. attend many dances during the school year, from the sock hops to the gala formal proms of the upper classes. These various activities give students an opportunity to develop a social poise and confidence that prepares them for community leadership.
